Truck Service Essentials

Reaching new heights

Winntec (Est. 2002) is a manufacturer, esteemed developer and international supplier of high quality, efficient and reliable automotive workshop “essentials”, available in automotive and industrial markets in Europe, North America, Southern Africa and Pacific Asia. The ranges are “priced right” and backed up by outstanding customer service and support.

Whether you are a tire shop, an automotive workshop, body shop or car dealership, Winntec offers you solutions which are certified to the highest level of useful life (professional use and not occasional use) to ensure maximum value of your investment. All our products are consistently made of the best materials available and constructed and tested in accordance with the latest and most advanced techniques.

TURBO LIFT and **AUTO SHIFT** are just two of the amazing technologies that Winntec introduced during its first decade of existence. Both systems greatly reduce the risk of injury while dealing with heavy loads in and around the shop.

In the years to come we will further intensify our focus on a safe workshop environment. We plan to bring you more innovative products in which ergonomics, ease of use and price remain in perfect balance.

Bottle Jacks

Versatile for use in a large variety of applications: pushing, bending, pressing or straightening. The full range comes with cast iron bases, polished main rams and a solid, chromed pump linkage. These jacks are tested to the latest European standards, have overload protection and can be used in both horizontal and vertical positions. All models (except Y413000 & Y411000) have a twist top for precise height adjustments.

The **telescopic** Y411000 comes with two extensions (45mm+6mm). Winntec guarantees a 3 year warranty due to internally machined oil passages, smooth bearing surfaces and close tolerances.

Model	Base plate (mm)	Min H. (mm)	Lifting H. (mm)	Adjust H. (mm)	Max H. (mm)	T	W

The BIG guys

Main features

- Foot pedal
- Ergonomic handle

Long Chassis Jacks

This range is designed especially for extreme heavy-duty lifting. It is perfect for servicing truck fleets, busses, farm- and heavy construction equipment and other vehicles that require a low starting point and a relatively high reach. All models feature a foot-operated pump for quicker lifting efficiency, automatic overload safety valve and swivel casters for easy maneuvering around tight spaces. The ergonomic handle features an integrated load control knob which is in connection with a universal joint release valve.

- Dead-man control
- Extension screw

Air Service Jack - Single Stage

This single stage air service jack delivers a massive 24 Ton of power and is guaranteed with a unique 3 year warranty on its interior hydraulic and pneumatic components. It is designed to meet and exceed expectations of a quality jack at a very competitive market value.

The controller allows for the jack to ascend and descend with air. No more relatively unsafe, manual descending of heavy trucks! This Y432024 comes with 3 extensions (20mm-50mm-100mm) and is equipped with a 85mm extension screw. The heavy duty wheels have been designed for daily use. Hard chromed piston.

Specifications

A = 215 mm

B = 141 mm

C = 85 mm

D = 525 mm

E = 1240 mm

F = 265 mm

Low clearance -
Maximum mobility

Main features

- Chromed pistons
- 150mm entry height
- Compact body

Air Service Jack - Telescopic

Dual stage air service jack with a low entrance height of just 150mm and hard chromed piston. With 32/16 Ton capacity and its compact dimensions, this jack is ideal for both workshop and road assistance duty.

The controller allows the jack to ascend and descend with air. This premium Y432032 is backed with 3 year warranty. Air controlled descent ensures maximum safety while dealing with heavy loads.

This Y432032 comes with 2 extensions (45mm-100mm). As an option we offer a 260mm extension which is a great help when lifting trailers.

Specifications

A = 150 mm

B = 73 mm

C = 66 mm

D = 480 mm

E = 1300 mm

F = 290 mm

Wheel Dolly

This industrial quality wheel dolly increases productivity in the shop by offering a fast & efficient way to remove the tire/wheel assembly. Its ergonomic design helps to reduce workplace back strain injuries. The extended rollers (ideal with wide base tires) can be installed in 3 positions depending on the wheel size. The roller bearings are of Japanese origin. The rubber wheels have an all new and unique steel core providing optimal life time performance.

SAFERGO Wheel Dolly

This lightweight, portable dolly has a compact hydraulic unit that ensures precise positioning. It also allows the operator to work on a very short distance from the vehicle which is crucial during road assistance service work. Its shock absorbing casters ensure a smooth ride from and to the hub on a rough surface.

Winntec delivers you once again affordable ergonomics without affecting operation speed.
