## REMAREP ULTRA 10

### Repair in record time

Every unplanned failure of the conveyor belt system is wasting money. With the 2-component-polyurethane paste **REMAREP ULTRA 10** downtimes can be reduced to a minimum. After 15 minutes, the hardness is 65 Shore A, after 60 minutes the conveyor belt can be loaded again. The red color helps identifying the damage and indicates the condition of the belt.
